Shobhit Gupta

Full Stack Developer · Startup Builder · Problem Solver

shobhitguptacs25@bmsce.ac.in · https://github.com/shobhitguptacs · https://leetcode.com/u/Shobhit_Gupta_/

Summary

Second-year CSE student at BMSCE and full-stack developer interested in product building and collaborative startup teams. Hands-on with React, Next.js, Node.js, Express, MongoDB, Python/Django, C++, JavaScript, data structures and algorithms, and basic machine learning with Python.

Skills

Frontend: React, Next.js · **Backend:** Node.js, Express, Python, Django · **Languages:** C++, Python, JavaScript · **Database:** MongoDB · **Problem solving:** Data structures, algorithms · **AI/ML:** Basic machine learning with Python · **Tools:** Git, GitHub, Postman, Visual Studio Code

Projects

PawCare — Stray Animal Assistance, Rescue and Adoption

Technologies: React, React Router, Express, MongoDB/Mongoose, JWT, bcrypt, Multer, Leaflet, OpenStreetMap

- Built PawCare end to end, a full-stack platform connecting people reporting stray or injured animals with volunteers, shelters, and adopters; added JWT/bcrypt authentication and role-protected views for users, volunteers, shelters, and administrators.
- Implemented photo- and map-based rescue reports with Emergency/Urgent/Normal priority, a volunteer Accept → In Progress → Resolved workflow, shelter-managed adoption listings, and lost/found notices.

Education

BMSCE — Computer Science and Engineering, second year.

Problem Solving

LeetCode: 30 problems solved (15 Easy, 13 Medium, 2 Hard); 21 active days; 7-day maximum streak. Profile checked 27 October 2026. Profile: https://leetcode.com/u/Shobhit_Gupta_/.
